Several days ago, YouTube removed the video link of the president of the Front Line COVID-19 Critical Care Alliance (FLCCC)—Dr. Pierre Kory—giving sworn testimony to the Senate Committee on Homeland Security and Governmental Affairs on official United States business (Dec 8, 2020). The video that was removed was footage shot and posted by C-SPAN.

In the censored video, Dr. Kory testified that Ivermectin—an FDA-approved anti-parasitic agent—had been shown in numerous controlled trials around the world to prevent and treat COVID-19. In addition to the testimony video posted by a United States senator, the testimony video posted by FOX NewsNow on their YouTube channel which was nearing 8 million views, was removed the same day. However, in this instance, the page indicated that FOX NewsNow themselves made it unavailable, suggesting other interests are also suppressing information about ivermectin.

Here was one of the nation's most brilliant Critical Care/ICU specialists pleading to the committee to urge the National Institutes of Health (NIH) to review the scientific evidence that supported Ivermectin as a way to not only prevent patients with COVID from deteriorating but also to keep healthy patients safe from getting the virus while awaiting the vaccine.

This was not in any way dangerous or misleading testimony. This was not advocating any kind of violence or ingestion of any toxic substance. Yet, YouTube unilaterally decided that Dr. Kory, a leading physician, citing extensive scientific evidence, was giving “dangerous and misleading” information, and so they took it down. In the midst of a once-in-a-century killer pandemic, a scientific scholar's official statements were silenced while he was attempting to inform the government that there was a safe, proven and inexpensive way to immediately begin to save lives, dramatically lower case counts and significantly slow the pandemic itself.

By its shocking action, YouTube pulled the curtain down on official public information that the American people had every right to see. YouTube flagrantly disregarded the Constitutional imperative of transparency in government and decided that it alone knew what was in the best interest of the nation's citizens.

During a devastating pandemic, it is arguably more dangerous for social media giants like YouTube to indiscriminately discredit and summarily remove official government information given under oath by world renowned medical experts... all while people are dying in horrific numbers.

Sincerely,

The Front Line COVID-19 Critical Care Alliance

Pierre Kory, MD	Keith Berkowitz, MD
Paul E. Marik, MD	Howard Kornfeld, MD
G. Umberto Meduri, MD	Fred Wagshul, MD
Joseph Varon, MD	Scott Mitchell, MBChB
Jose Iglesias, DO	Eivind Vinjevoll, MD

Our version of the video is still available on Vimeo:

*The FLCCC Alliance was organized in March, 2020 by a group of highly published, world renowned Critical Care physician/scholars – with the academic support of allied physicians from around the world – to research and develop lifesaving protocols for the prevention and treatment of COVID-19 in all stages of illness. Their **MATH+ Hospital Treatment Protocol** – introduced in March, 2020, has saved tens of thousands of patients who were critically ill with COVID-19. Now, the FLCCC’s new **I-Mask+ Prophylaxis and Early At-Home Outpatient Treatment Protocol** with Ivermectin has been released – and is a potential solution to the global pandemic.*
