

WHICH FLCCC PROTOCOL SHOULD I USE?

I don't have COVID, RSV, or influenza and I want to avoid getting them.

I-PREVENT™
COVID, FLU AND RSV PROTECTION

My husband/wife has COVID. I want to avoid getting it too.

I-PREVENT™
COVID, FLU AND RSV PROTECTION

I just started experiencing COVID symptoms and need treatment.

I-CARE™
EARLY COVID TREATMENT

I have or someone in my family has symptoms of influenza or RSV.

I-CARE™
RSV AND FLU TREATMENT

I have lingering COVID symptoms but have been sick less than a month.

I-CARE™
EARLY COVID TREATMENT

I had COVID a while ago and still struggle with symptoms.

I-RECOVER™
LONG COVID TREATMENT

I was vaccinated and now I am experiencing symptoms.

I-RECOVER™
POST-VACCINE TREATMENT

As evidence emerges, we update our protocols to include new therapeutic strategies and change dosing recommendations.

Scan the QR code above to visit our website and ensure you are using the latest versions of the protocols.
