The Signatories

Gathered at the 3rd World Congress of MPV-LA and FLCCC, express their position and reflections on the mistakes made during the COVID-19 pandemic.

We have been exposed to a flood of Lies in the form of misinformation and fake news during the COVID-19 pandemic.

- 1. The UN & WHO:** ‘The 2030 Agenda’ is a UN project for a new humanity and a new world. The WHO, a UN agency, is not a medical or scientific body. The WHO is an unelected group heavily funded by billionaire foundations and pharmaceutical industries that produce and invest in vaccines. As such, the WHO has strong conflicts of interest.
- 2. Event 201:** The WEF, a private, non-government organization signed a strategic partnership with the UN, in June 2019, to jointly accelerate the implementation of the 2030 Agenda, Event 201, a simulation exercise of a severe pandemic scenario, took place in October 2019 that directed the way to engage governments, businesses & public health leaders. This exercise was hosted by the WEF and the Bill & Melinda Gates Foundation with John Hopkins Health Center.

3. The Nature of Science: Science is characterized by debates and uncertainties. There is no single ‘voice of science’ or ‘scientific truths’, especially with the emergence of a new disease or the development of new medicines.

4. Conflicts of Interest: Scientific policy makers and committee members are often appointed by governments and pharmaceutical companies, and bring with them serious conflicts of interest.

5. Redefinition of Pandemic: In 2010, the WHO redefined the concept of pandemic to be a geographic concern, without addressing the lethality of the disease.

6. Origin of SARS-CoV-2: The origin of the virus was attributed to a spontaneous mutation in bats in Wuhan, China, home to a Wuhan Microbiology lab, now known as the Wuhan Institute of Virology. Any talk about the lab as the viral origin was censored and labeled a ‘conspiracy theory’. Discussion about lab origin is now entering mainstream media but not being confirmed.

7. RT-PCR and Diagnosis: The WHO established the PCR test as the gold standard for diagnosing COVID-19, despite its own inventor’s assertion that it is not suitable for diagnosing.

8. Asymptomatic Patients and Masks: The WHO defined ‘asymptomatic patients’ as healthy people with positive PCR tests. Face masks were mandated for everyone, despite scientific evidence that masks do not prevent the spread of infection.

9. Social Distancing and Lockdown created isolation and so called ‘non-essential’ businesses were shutdown. This bankrupted small businesses, increased fear and launched a global economic crisis, while Big Box companies thrived.

10. Late Diagnosis and Treatment: Health Ministries, guided by the WHO, directed hospitals and medical regulators, and mandated stay-at-home guidelines stating only to go to the hospital when you could not breathe.

11. Repurposing Medicines vs Vaccines: Using repurposed medicines, a normal standard of care, was prohibited. The official narrative insisted only vaccines could save humanity. This gave space for the COVID-19 GMO mRNA technology platform to be authorized via EUA.

12. Vaccine Redefinition: The WHO changed the definition of vaccines so that COVID-19 ‘vaccines’, the GMO mRNA technology platform, fit the definition.

13. Immunity: The WHO took down their website on natural immunity to drive people to vaccinate.

14. “Safe and Effective”: Mainstream media & health agencies promoted the jingle ‘safe & effective’ while there was evidence to the contrary.

15. Vaccines and Children: Our children have been targeted. They are not a risk group for contracting or spreading the virus.

16. Digital Health Passports: This is an infringement on our privacy and freedom.

17. Pandemic Treaty and new International Health Regulations: This is a WHO takeover of the health of every man and woman on earth. UN member states are being coerced into accepting a Pandemic Treaty that will make all nations subordinate to the WHO. Nations must reject the new amendments to the International Health Regulations that were approved on June 1, 2024.

**To the UN, WEF, WHO “Great Reset” to “Build Back Better”
Let’s own this & recreate a health system based on Cures not Dis-Ease**

It is our obligation to Act in Honor and Do No Harm

**Men and Women have inalienable rights of LIFE, TRAVEL,
SPEECH, PROPERTY and PRIVACY from the moment of
conception to the last breath of Life**

Health autonomy & personal choice and freedom

It is our obligation to unify in a peaceful, thriving global community to guide governments, journalists, doctors, lawyers and representatives of positive social change to collaborate and support individual expression and freedom of choice for mankind. No man has a right to threaten the sovereignty of an individual's divine existence.

"When fear takes precedence over reason, and authority over inquiry, we risk sacrificing both our freedoms and our wisdom in the name of safety."

"In the end, the best way to predict the future is to create it with wisdom and compassion."
